A screenshot of the Tableau Public website search results for the term 'geography'. The search bar at the top contains 'geography'. Below it, there are tabs for 'All results' (2,596), 'Vizzes' (2,556), 'Authors' (29), 'Blogs' (11), and 'Resources'. The 'All results' tab is active. The results list includes two entries:

- Geography - ri.uncc**: A viz thumbnail, a link to https://public.tableau.com/profile/ri.uncc#/vizhome/Geography_9/Geography, and the date Jan 4, 2016 - Geography.
- Geography - Lakshmi**: A viz thumbnail, a link to https://public.tableau.com/profile/lakshmi3372#/vizhome/Geography_25/Geography, and the date Sep 9, 2017 - Geography.

Funcionalidades importantes

The screenshot shows the Tableau application window with several menus open:

- File**: Sub-menu includes New, Open..., Close, Save, Save As..., Revert to Saved, Export As Version..., Export Packaged Workbook..., Export As PowerPoint... (with keyboard shortcuts like ⌘N, ⌘O, ⌘W, ⌘S, ⌘S, ⌘E, ⌘P, ⌘F, ⌘P).
- Data**: Sub-menu includes New Data Source, Paste, Refresh All Extracts..., Edit Blend Relationships..., Replace Data Source..., Data (Data) (with a dropdown arrow), Export_13-04-2020-EmpresasDetails (selected, with a checkmark), and postalCodeGIS.
- Worksheet**: Sub-menu includes Edit Data Source..., Refresh (with ⌘R), View Data..., Rename..., Duplicate, Close, Extract Data..., Use Extract, Extract (with a dropdown arrow), Edit Data Source Filters..., Replace Data Source..., Assume Referential Integrity, Date Properties..., Edit Aliases..., Publish to Server..., Add to Saved Data Sources..., Export Data to CSV..., and Properties... (with a dropdown arrow).
- Map**: Sub-menu includes Background Maps, Background Images, Geocoding, Map Legend, Map Layers..., and Map Options... (with a dropdown arrow).

Annotations on the image:

- A green arrow points from the text "Crear, Open, Cerrar, Guardar un fichero" to the "File" menu.
- A blue arrow points from the text "Visualización Geográfica" to the "Map" menu.
- A red arrow points from the text "Adicionar, Reemplazar ó Editar fuentes de datos" to the "Data" menu.

The screenshot shows the Microsoft Power BI desktop application. On the left, the 'Connections' pane lists 'Sample - EU Superstore' (Microsoft Excel) and other sheets like 'Orders', 'People', and 'Returns'. A green arrow points from the 'Orders' sheet to the main workspace. In the center, a large orange box highlights the 'Orders' sheet, which displays a preview of the data with columns such as Row ID, Order ID, Order Date, Ship Date, Ship Mode, Customer ID, Customer Name, Segment, Postal Code, and City. The data includes various entries like '40098 CA-2014-AB10015140-41954' and '26341 IN-2014-AH10015140-41678'. Below the preview, the text '1. Arrastrar y Soltar' (Drag and Drop) is overlaid. Another green arrow points from the 'Orders' sheet back to the 'Orders' section in the 'Connections' pane.

This screenshot shows the same Power BI desktop interface after performing a drag-and-drop operation. The 'Orders' sheet has been moved over the 'People' sheet, indicated by a green arrow. A large orange box highlights the joined dataset in the center, showing a preview with columns 'Orders' and 'People'. Below the preview, the text '2. Arrastrar y Soltar' (Drag and Drop) is overlaid. The 'Connections' pane on the left remains the same, showing the 'Sample - EU Superstore' connection.

The screenshot displays several overlapping windows. On the left, the 'Connections' pane shows a Microsoft Excel connection named 'Sample - EU Superstore'. Below it, the 'Sheets' pane shows 'Orders' and other sheets. In the center, an 'Add a Connection' dialog is open, listing various data sources like Alibaba AnalyticDB for MySQL and Alibaba Data Lake Analytics. To the right, a file browser window shows a list of files in a folder, with one file, 'Export_13-04-2...postalCode.csv', highlighted in orange. At the bottom, a 'Join' dialog is open, showing a list of tables from the 'Orders' data source, including 'Beneficio', 'Categoría', 'Categoría y Subcategoría', 'Ciudad', 'Descuento', and 'Estado'. A green arrow points from the highlighted file in the file browser to the 'Join' dialog.

The screenshot shows the Tableau interface with the visualization shelf on the right. The shelf displays a grid of icons representing different chart types, including maps, bar charts, line graphs, and bubble charts. To the left of the shelf, there are sections for 'Pages', 'Filters', and 'Marks'. The 'Filters' section contains a 'Show Me' button and a 'Address REGION' button. The 'Marks' section includes options for 'Automatic' and 'Color', 'Size', 'Text', 'Detail', and 'Tooltip'. Below the shelf, there is a section titled 'Select or drag data' with instructions: 'Use the Shift or Cmd key to select multiple fields'. A callout bubble highlights the 'Address REGION' button in the 'Filters' section.

The screenshot displays a Tableau dashboard titled "Tableau - EmpresasDetails_01". The dashboard features a map of Spain and Portugal with numerous colored dots representing data points. A tooltip is open over a dot in Madrid, showing the postal code "28001" and the industrial classification "ISIndustrial Clasification: 9".

Left Panel (Data Source):

- Dimensions:**
 - Postal Code
 - Street Address
 - Contact Point
 - Area Served
 - Available Language
 - Contact Type
 - telephone (contactPoint)
 - Export 13-04-2020-EmpresasDetails
 - Alternate Name
 - Description
 - Document Index (generated)
 - Founding Date

 - name (founder.worksFor)
 - Measure Names
- Measures:**
 - isicV4 (Count (Distinct))
 - Latitude (generated)
 - Longitude (generated)
 - Number of Records
 - Measure Values

Middle Panel (Marks Card):

Shows the configuration for the map marks. The "Color" and "Size" buttons are selected. The "Detail" and "Tooltip" buttons are also present. A green arrow points from the "isicV4" dimension in the data source to the "CNTD(isicV4)" measure in the marks card.

Right Panel (Edit Tooltip and Edit Sizes Dialogs):

Edit Tooltip Dialog:

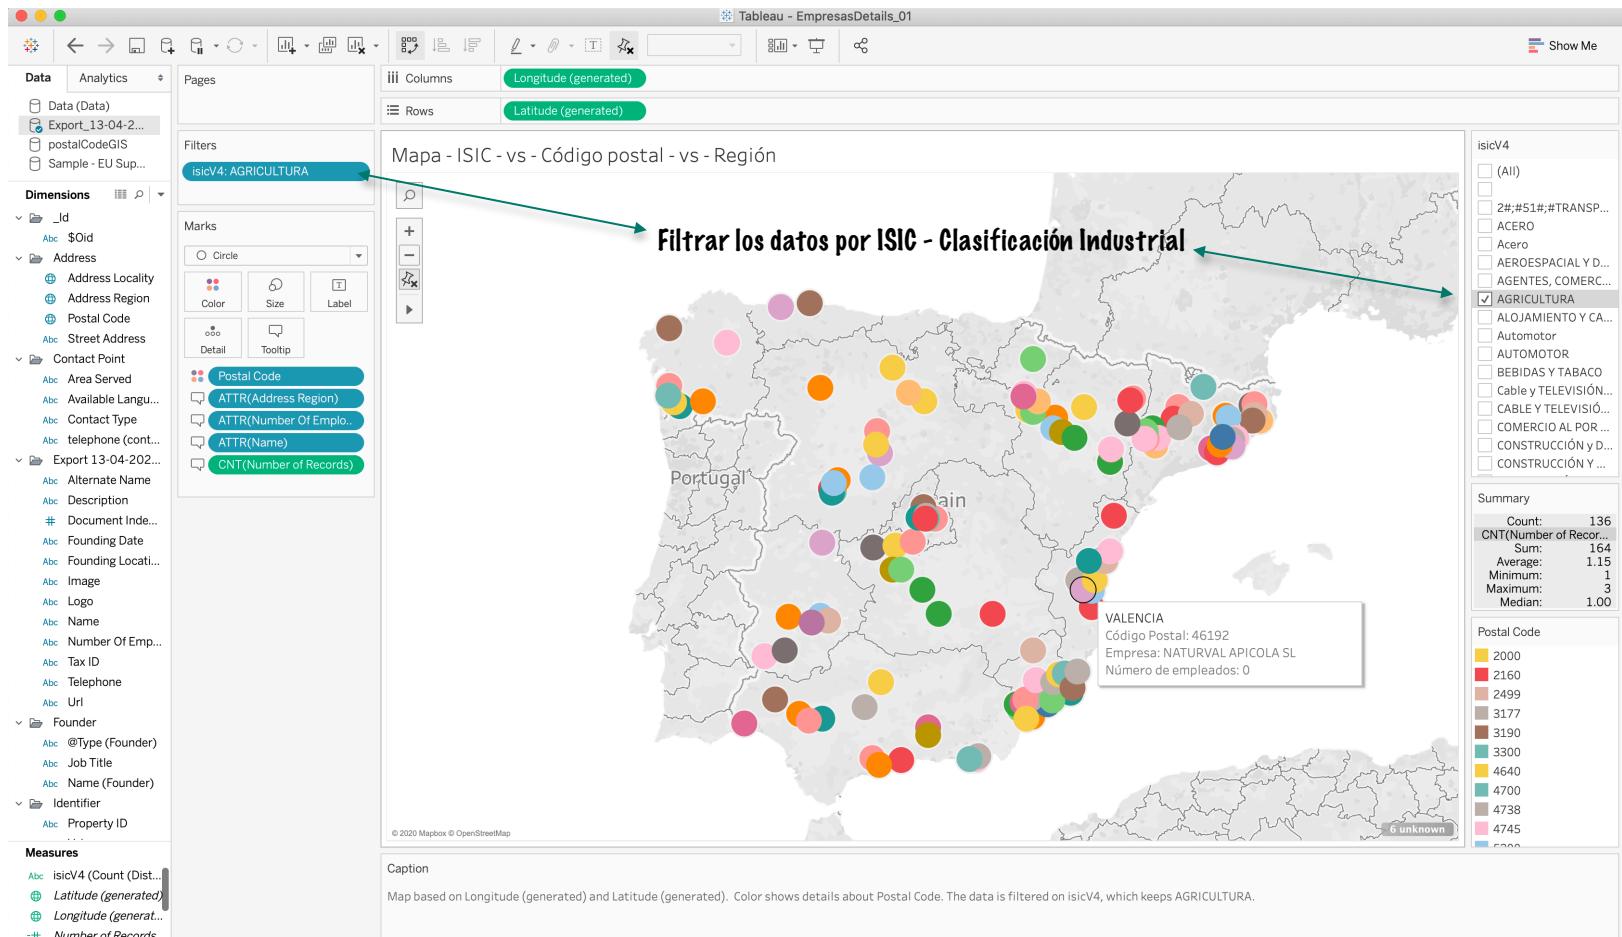

- Fields: KATTR(Address Region), Postal Code: <Postal Code>, ISIndustrial Clasification: <CNTD(isicV4)>
- Buttons: Show tooltips, Responsive - Show tooltips instantly, Include command buttons, Allow selection by category, Reset, Preview, Cancel, OK

Edit Sizes Dialog:

The screenshot displays a Tableau desktop interface with the following key components:

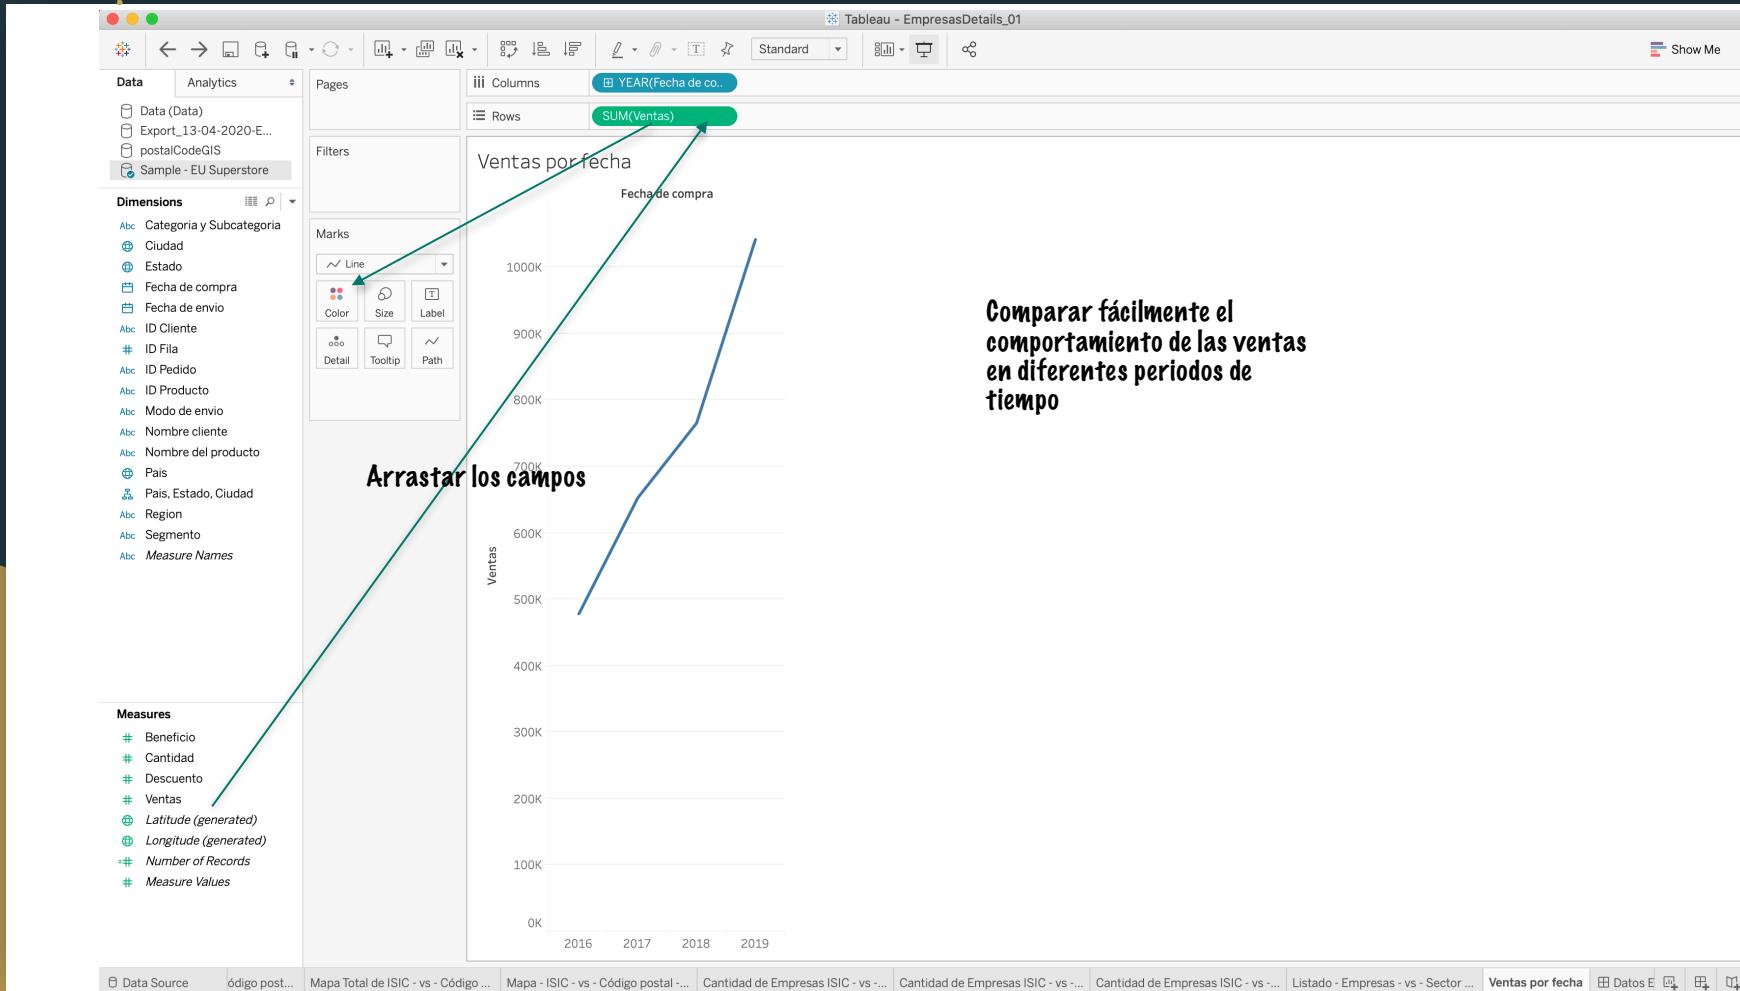

- Top Bar:** Includes standard navigation icons (Back, Forward, Home, etc.) and a "Show Me" button.
- Left Panel (Data Sources):** Shows connections to "Data (Data)", "Export_13-04-2020-Ern...", "postalCodeGIS", and "Sample - EU Superstore". A "Dimensions" section lists categories like "Categoría y Subcategoría", "Ciudad", "Estado", "Fecha de compra", "Fecha de envío", "ID Cliente", "ID Fila", "ID Pedido", "ID Producto", "ID Superstore", "modo de envío", "Nombre cliente", "Nombre del producto", "País", "País, Estado, Ciudad", "Region", "Segmento", and "Measure Names".
- Middle Panel (View Controls):** Features "Pages", "Columns", "Rows", and "Filters" sections. The "Rows" section shows fields "Modo de envío" and "Categoría y Subcategoría". A context menu is open over the "Categoría y Subcategoría" field, with options including "Show Filter", "Show Highlighter" (which is highlighted in blue), "Sort...", "Format...", "Show Header" (checked), "Include in Tooltip" (checked), "Edit Aliases...", "Dimension" (checked), "Attribute" (checked), "Measure" (checked), "Edit in Shelf", and "Remove".
- Right Panel (Data View):** Displays a large heatmap or grid visualization titled "SUM(Beneficio)" with values ranging from 10 to 1,776. The columns represent segments like "Corporate" and "Home Office", and rows represent categories like "Furniture-Bookcases" and "Technology-Copiers". The color scale indicates the magnitude of the benefit sum, with darker green representing higher values.

The screenshot displays three main views of Tableau:

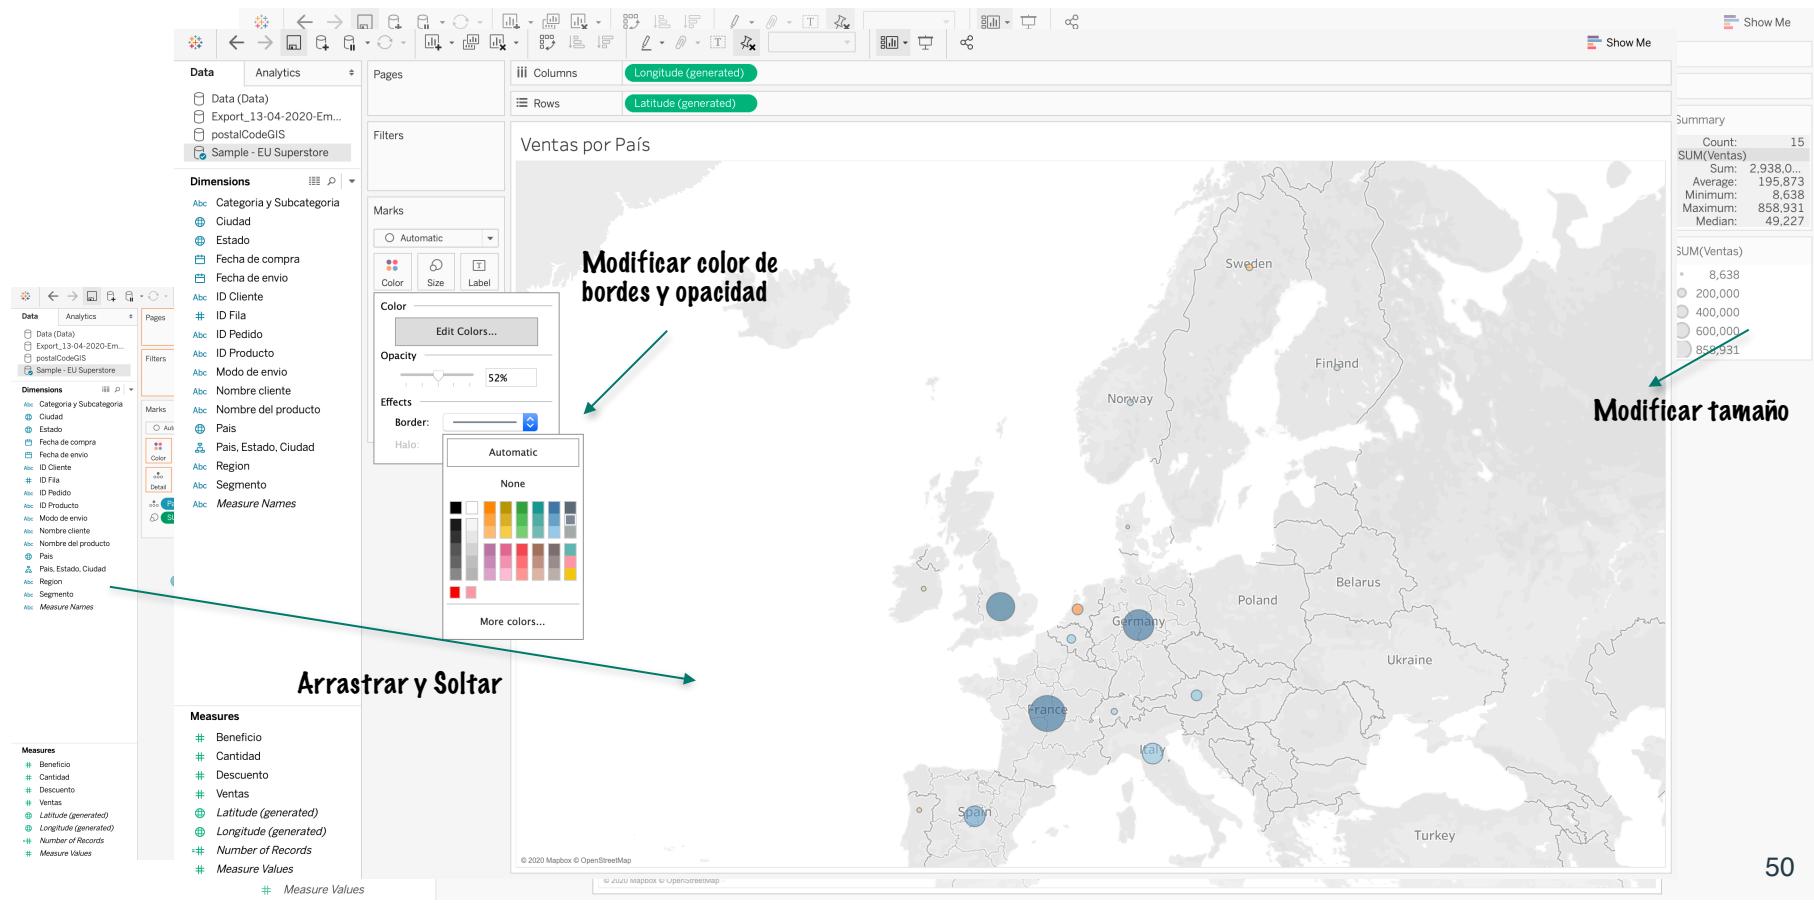

- Top Left View:** Shows a world map with a highlighted region. The sidebar shows dimensions like 'Categoría y Subcategoría' and measures like 'Beneficio'. A legend at the bottom includes 'Longitude (generated)' and 'Latitude (generated)'.
- Bottom Left View:** Shows a map of Europe with several blue dots placed on it, representing data points. The sidebar shows dimensions like 'Categoría y Subcategoría' and measures like 'Beneficio'. A legend at the bottom includes 'Longitude (generated)' and 'Latitude (generated)'.
- Bottom Right View:** Shows a treemap visualization titled 'Ventas por País' (Sales by Country) where countries are colored by sales volume. The sidebar shows dimensions like 'Categoría y Subcategoría' and measures like 'Beneficio'. A legend at the bottom includes 'Longitude (generated)' and 'Latitude (generated)'.

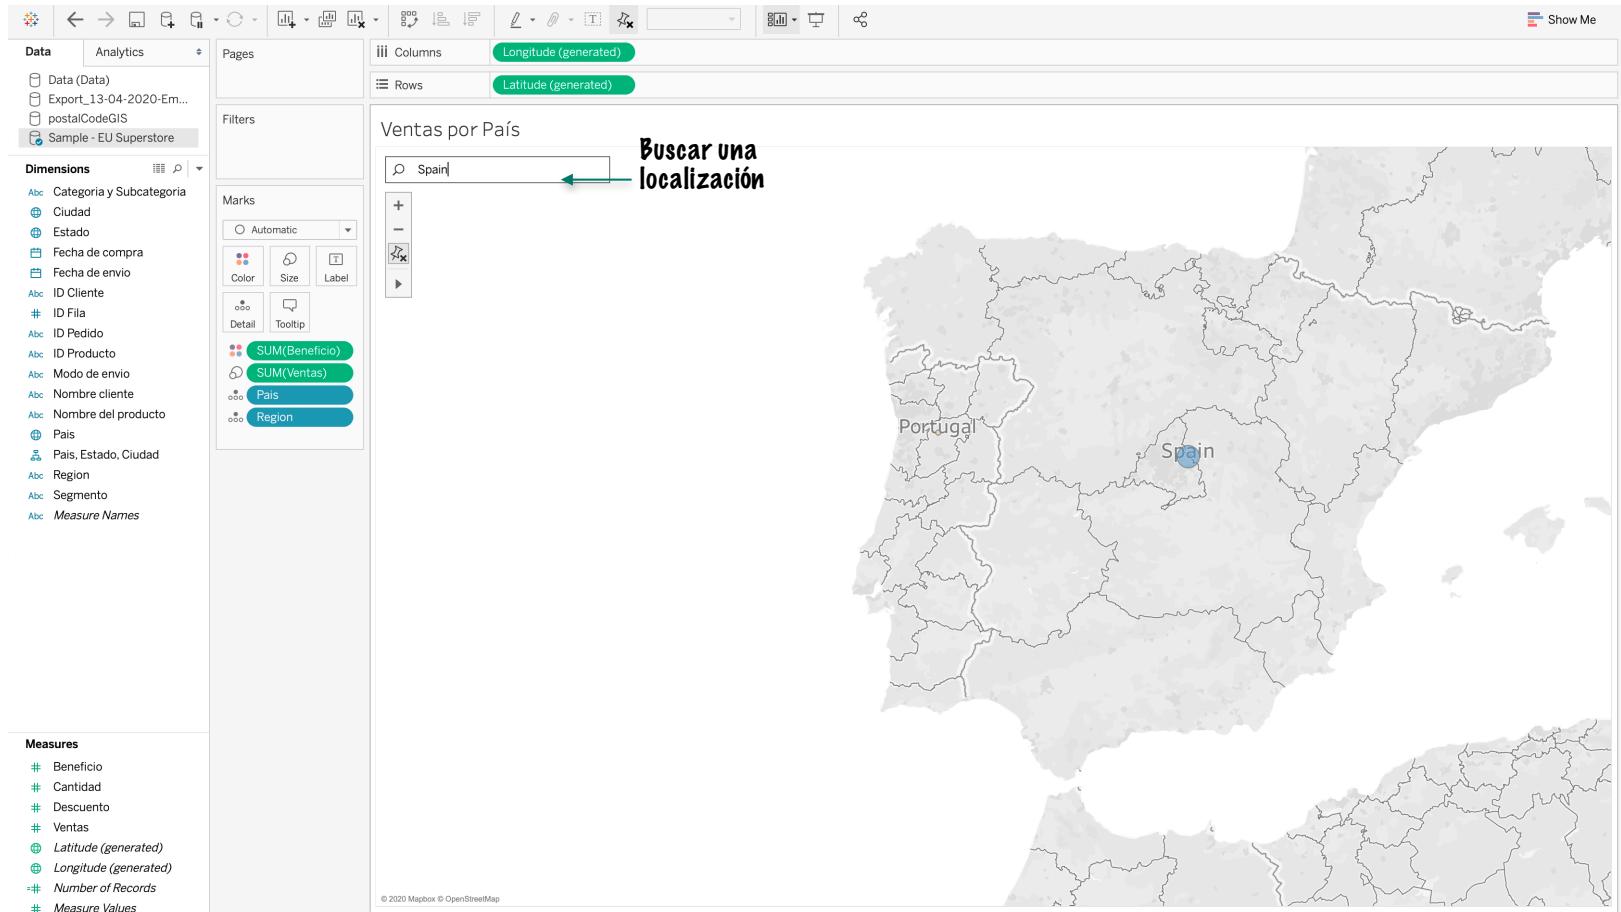

A large green arrow points from the top-left view down towards the bottom-right view, indicating the flow of selection or navigation between the different types of visualizations.

tions Docs

The MongoDB Connector for Business Intelligence lets you use MongoDB as a data source for SQL-based analytics and data visualization tools like Tableau. Seamlessly create the Tableau visualizations and dashboards that will help you extract the insights and hidden value in your multi-structured data.

The MongoDB Connector for BI is part of MongoDB Enterprise Advanced. Get started by downloading the [MongoDB Connector for BI](#) from here. You can review our [evaluation agreement](#) here.

Connecting From Tableau

Here's a brief tutorial on how to connect to the BI Connector from Tableau with or without MongoDB authentication enabled.

```
/Users/soniacelis/mongodb-macos-x86_64-4.2.0/bin  
mongodb+srv://User:Pass@clusterhokkaido-quamv.gcp.mongodb.net/test
```

```
mongoexport --uri="mongodb://mongodb0.example.com:27017/reporting" --collection=events --  
out=events.json [additional options]
```
